Diane,

I asked Carolyn to query the SDWIS database to identify facilities where there was an existing federal enforcement order in place where the system had not yet been returned to compliance (as so indicated by SDWIS). SDWIS did not identify any such facilities/orders in IA or NE.

Appears that 3 such orders may exist in KS -

City of Pretty Prairie - Order associated with nitrate exceedances which may have started in 1979.
Appears that they are currently non-compliant for nitrates.

Please let me know if you have any questions.

Scott

Subject outstanding Federal Enfc Actions

There were no outstanding Fed Enfc actions in Iowa or Nebraska.

There are 3 old violations in KS that have not been EOX'd.
